Foreword

Opportunity Trails: An Atlantic-Wide Connection is intended to improve the ability of educators to identify and access resources which can serve as valuable teaching and learning tools for entrepreneurship educators at all levels. The underlying goal of this information guide is to nurture the creation of learning partnerships that will elevate student independence, perseverance and engagement in entrepreneurship education and venture creation. It is hoped that this information guide might become valued as one of the numerous resources entrepreneurship educators will use to enrich learning for their students.

Since the early part of this decade, a collective effort has been made to enhance entrepreneurship development at all levels of public education, as well as at the college and university levels, in Atlantic Canada. This effort has focused mainly on development of entrepreneurship curricula, resources, programs, professional training and student venturing. Initiatives in entrepreneurship education that have emerged in Atlantic Canada strongly advocate the skills, attitudes and knowledge required by students to meet the economic and social challenges of the 21st century.

In keeping with the rapid advancement in this area of education, there is an ongoing need to ensure optimum representation of worthwhile entrepreneurship resources. In addition to this published guide, the Atlantic Canada Opportunities Agency (ACOA) will be posting the information on its website (www.acoa.ca) so as to facilitate access by stakeholders and allow updating. The idea of this guide evolved from work by the Centre for Entrepreneurship Education and Development for the 1997 Entrepreneurship Educators Symposium.

ACOA wishes to acknowledge the work and dedication of project consultant Darren Sears without whom this Guide would not have been possible. The Agency also thanks all those at the departmental, public school, community college and university levels, as well as all other contributors, who have been entrepreneurial in helping us turn this idea into reality.

- ✓ ***1.3 Some Key Aspects of Student Ventures***
- ✓ ***1.4 Learning Through Entrepreneurship***
- ✓ ***1.5 Teaching Approach Template***
- ✓ ***1.6 Community Links and Entrepreneurship Education***

1.1 Introduction

As a pathway to venture creation, entrepreneurship education provides a vehicle for students to demonstrate their success beyond the walls of the classroom. This section explores the creative utilization and potential of existing entrepreneurship resources by advancing an established learning approach as a framework for developing entrepreneurial concepts, skills, and attitudes. As such, this section represents only a small part of the pertinent information entrepreneurship educators would require for the effective delivery of their course or program.

1.2 Entrepreneurship as an Opportunity for Learning

*We are at last coming to realize that the most important resources
in Canada are not in the ground or in our oceans.
They are in our classrooms.*

*Gareth Morgan, to the International Conference
on Evaluation (ICE), Toronto, 1994*

Through entrepreneurship education, there exists a real possibility for learners at all levels to discover and develop entrepreneurial skills and abilities that will encourage them to identify, create, initiate and successfully manage personal, business and community venture opportunities.

Entrepreneurship education offers students an opportunity to build upon their experiences and interests and take greater responsibility for their own learning. Through learning about venture creation and being provided with opportunities to experience venture creation, students may simultaneously work towards the achievement of identified personal and career goals.

The ability of students to recognize their entrepreneurial potential might be a measure of their exposure to various resources and venture-based experiences. Nurturing the shift from learner dependence to independence and sparking the growth of a vibrant entrepreneurial spirit is something which can be facilitated by the appropriate combination of entrepreneurship content and pedagogy.

Value beyond instruction, clear feedback, collaboration beyond the classroom, and greater flexibility for learning are qualities identified by Newmann (1992) that are often missing from the classroom. Through entrepreneurship education, we have a tremendous opportunity to focus on those qualities in an effort to encourage the future success of students.

1.3 Some Key Aspects of Student Ventures

If students are to become actively involved in their own learning, educators should be able to ascertain the value of the tasks they encourage their students to undertake. What factors might be considered during the process of determining resources and activities for students to utilize? Through teacher and student feedback a number of key aspects have emerged to help identify the benefits of venture creation experiences in the context of entrepreneurship education.

The following are *Some Key Aspects of Student Ventures* which have been identified to help motivate and engage student learning beyond the walls of the classroom, and to highlight significant components of an entrepreneurial learning culture:

SOME KEY ASPECTS of STUDENT VENTURES

Exploration
Networking
Technology
Risk Taking
Environment
Planning
Resources
Empowerment

New Thinking
Evaluation
Understanding
Reflection
Solving Problems
Hands-On
Interaction
Purposeful

Exploration

- ❖ Student ventures should allow students to explore their interests and talents, and encourage the exploration of new ideas and opportunities.

Networking

- ❖ Student ventures should encourage students to utilize the expertise of others and promote opportunities for mutually beneficial partnerships.
- ❖ Student ventures provide effective networking opportunities that allow for the demonstration and/or development of essential communication skills.

Technology

- ❖ Student ventures should create opportunities for students to explore and use appropriate technology.

Risk-Taking

- ❖ Students should be challenged to learn from their mistakes, rather than be punished for them.
- ❖ The venture creation process should encourage students and educators to take informed risks.

Environment

- ❖ Student ventures require a supportive and flexible learning environment.
- ❖ The learning experience provided by student ventures is as important as the end product.

Planning

- ❖ The venture should require students to plan, and encourage the idea that informed risk-taking comes through planning.

Resources

- ❖ Student ventures should involve a variety of resources, including the consideration and use of resources beyond the walls of the school.

Empowerment

- ❖ Through ventures, students are provided with opportunities to have greater ownership of their own learning and demonstrate and/or develop leadership qualities.
- ❖ Student success needs to be celebrated. There is always something positive to celebrate, it is just waiting to be found.

New Thinking

- ❖ The student venture should nurture a creative spirit. Forget about why it can't be done, and figure out how to do it.

Evaluation

- ❖ The utilization of performance-based assessment tools are effective in the evaluation of student ventures.
- ❖ Through student ventures, educators can evaluate outcomes as they have always done.

Understanding

- ❖ The power of understanding is grasped more effectively when students are engaged in the identification, planning and implementation of their own ventures.

Reflection

- ❖ It is important to provide frequent opportunities for review and reflection to discuss and share entrepreneurial challenges, solutions and personal achievements.

Solving Problems

- ❖ Student ventures provide numerous opportunities to solve real problems in an effort to meet new challenges and achieve personal and team goals.

Hands-On

- ❖ The student venture should be experiential in nature.
- ❖ I see, and I forget - I hear, and I remember - I do, and I understand.

Interaction

- ❖ The venture should enable students to have some degree of interaction with their peers and other learning partners, and provide opportunities to develop teamwork skills.
- ❖ Communication and inter-personal skills can be effectively developed through student venture experiences.

Purposeful

- ❖ The venture should have a purpose beyond the activity itself, and that purpose should be known to students.
- ❖ Highly successful student ventures often have goals which bring about change and innovation in an authentic context.

1.4 Learning Through Entrepreneurship

Venture creation opportunities often provide a vehicle for students to learn-through-entrepreneurship. Learning through entrepreneurship simply means that students are provided with learning experiences, such as venture creation, to develop and demonstrate their entrepreneurial knowledge, skills, and values in an experiential and authentic context. *Some Key Aspects of Student Ventures* outlined in Section 1.3 provide a foundation for the following entrepreneurial learning approach whereby the learning partnership between the teacher and student is dynamic and fluid.

The educator's and the learner's role in active, entrepreneurial learning:

The **teacher** moves between being...

in the forefront	&	in the background
directive, making decisions, and taking the lead	&	non-directive, enabling decisions and encouraging leadership
protective, sheltering, and controlling	&	challenging, encouraging, risk-taking, and exploratory
dominating, forcing the pace	&	facilitative, nurturing, reflective
focused on the end product	&	focused on the learning process

The **learner** moves between being...

passive	&	active
dependant, following, and uncommitted	&	self-starting, initiating, and committed
cared for, secure, and cautious	&	experimental, insecure, creative and risk-taking
detached	&	involved

(Adapted from: *Pathways to Enterprise*, 1996)

1.5 Teaching Approach Template

The *Teaching Approach Template* was designed simply to help educators quickly identify the learning approach they are employing with their students in the classroom. Entrepreneurship educators will obviously move back and forth along the continuum of teacher-directed versus student-centred approaches depending upon learner needs and lesson objectives.

To use the *Teacher Approach Template*, check the applicable boxes under each of the four key areas of entrepreneurship as they apply to a particular lesson, activity, or venture opportunity. By calculating the total number of checks you will be able to provide yourself with a general indication of where you are on the Entrepreneurship Continuum.

Experiential

Are students encouraged to:

- ☐ problem solve in an effort to meet intended outcomes?
- ☐ explore and draw upon their own experiences?
- ☐ become actively involved in their learning?
- ☐ take learning beyond the walls of the classroom?
- ☐ apply skills, knowledge, and personal qualities in an authentic context?

Ownership

Are students encouraged to:

- ☐ take responsibility for certain aspects of their learning?
- ☐ build on existing skills?
- ☐ be involved in developing some of the evaluation methods?
- ☐ provide input on ways to achieve curriculum outcomes?
- ☐ risk-take and be creative?

Collaboration

Are students provided with an opportunity to:

- ☐ develop an ability to work in teams?
- ☐ experience their teacher as a partner in learning?
- ☐ network with peers and other sources?
- ☐ support and/or respect the opinions of others?
- ☐ be responsible/accountable for various tasks?

Evaluation

Is there opportunity for:

- ☐ guided reflection with students?
- ☐ performance-based assessment?
- ☐ peer assessment?
- ☐ self-assessment?
- ☐ on-going review of goals and activities?

Total Checked

Entrepreneurship Continuum

***Conventional
Approach***

***Entrepreneurial
Approach***

1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20

1.6 Community Links and Entrepreneurship Education

When we refer to **student ventures** and **learning through entrepreneurship** we require one essential ingredient, **the community**. Nurturing an entrepreneurial culture requires that we extend learning beyond the walls of the classroom and work creatively with our community resources.

Outside of their lives at school, students use entrepreneurial skills on a daily basis, but not necessarily in the context of entrepreneurship. Through community links in entrepreneurship education we create a powerful window of opportunity to achieve this goal.

Entrepreneurship education....is an adventure in reality. The classroom walls recede as the home, community, and the free enterprise system become learning labs. The teacher becomes a facilitator rather than the holder and dispenser of knowledge. We all learn by discovery and through trial and error. There are no standard, carved-in-stone teacher's guide answers. Students and teachers learn from each other. Parents, entrepreneurs from the community, inventors, bankers, artists, (etc.)...all become visiting professors.

*Ronni Cohen, Elementary Teacher
Author of the Inventor's Portfolio*

The potential for what can be accomplished is bound only by our imagination!

Curriculum-Related Initiatives in Entrepreneurship and Professional Development

- ✓ 2.1 Introduction
- ✓ 2.2 APEF Coordinated Entrepreneurship Resources for Kindergarten/Primary to Grade 12
- ✓ 2.3 Atlantic Provinces' High School Entrepreneurship Curricula and Contacts
- ✓ 2.4 Post-Secondary Contacts for Entrepreneurship Education Inquiries in Atlantic Canada
- ✓ 2.5 Professional Development Opportunities for Entrepreneurship Educators in Atlantic Canada

2.1 Introduction

The purpose of this section is to highlight current Atlantic Canadian professional development opportunities for entrepreneurship educators at the K/P-12 and post-secondary levels, as well as identify the current entrepreneurship curricula and Atlantic Provinces Education Foundation resources offered to students in Atlantic Canada. Through exposure to these resources it is hoped that educators will access various opportunities for continuing professional development and student learning.

2.2 APEF Coordinated Entrepreneurship Resources for Kindergarten/Primary to Grade 12

The Atlantic Provinces Education Foundation (APEF), an agency of the Departments of Education (DOE) in the four Atlantic Provinces and with support from the Atlantic Canada Opportunities Agency (ACOA), have collaborated through the *Pan-Atlantic Entrepreneurship Development Project* to develop entrepreneurship/enterprise resources from the Kindergarten/Primary to the Grade 12 level.

Cross-curricular French resources have been created for kindergarten through grade six, as well as one English resource for grades four through six. English resources are being developed at the K-3, 7-9, and 10-12 levels and will be available for use in Atlantic Canada. It is helpful for entrepreneurship educators to be aware of the Atlantic-wide initiative to infuse entrepreneurial and enterprise knowledge, skills, and attitudes at the various levels, so that they may nurture and support this experience and understanding.

Resources have been accompanied with extensive professional development activities for implementation of these Atlantic-wide resources.

Note: For more information about any of these public school resources, and to determine which have been approved for use in each province please contact your Department of Education. Contact numbers have been identified in Section 2.3.

APEF Coordinated French Language Resources

Collection *Coup de main*:

Kindergarten: *Le terrain de jeu*, Les Éditions d'Acadie, Moncton, 1996

Grade 1: *Des nuages en couleur*, Les Éditions d'Acadie, Moncton, 1996

Grade 2: *Une maison pour Manon*, Les Éditions d'Acadie, Moncton, 1996

Grade 3: *L'Île aux Mille Étoiles*, Les Éditions d'Acadie, Moncton, 1996

The characters in this series of books illustrate the habits and attitudes of enterprising people, such as: team work, organization, planning, and decision making skills. Together, the series *Coup de main* shows how the delegation of duties and human resourcefulness will bring about success and the attainment of one's goals. A Teacher's Resource Guide is also available.

Cap sur l'entrepreneuriat:

Grades 4-6: This is an activity-based teacher's resource designed to facilitate the development of entrepreneurial attitudes and skills for grades four, five and six. The format of this resource enables teachers to achieve existing curriculum outcomes while simultaneously promoting an entrepreneurial learning environment.

APEF Coordinated English Language Resources

K - Grade 3: *We Can do Anything! Learning Through Enterprise* is a cross-curricular activity-based resource for teachers at the Kindergarten to Grade 3 level.

Grades 4-6: *Pathways to Enterprise* is a cross-curricular teacher's resource designed to promote the development of enterprise skills, qualities, and values at this level. The resource provides enterprise awareness for teachers, student activities, and showcases a large number of student entrepreneurship and enterprise experiences throughout Atlantic Canada. A French translation of this resource has been completed by the Department of Education in New Brunswick.

Grades 7-9: *Connections: Learning Through Entrepreneurship Across the Curriculum* is a cross-curricular activity-based entrepreneurship resource for teachers at the Grades 7 to 9 level.

Grades 10-12: *Entrepreneurship and the Cultural Industries* is a teacher's resource designed to infuse entrepreneurship into the High School Fine Arts curriculum.

2.3 Atlantic Provinces' High School Entrepreneurship Curricula and Contacts

This part of section two identifies the central provincial entrepreneurship curriculum for French and English language programs in each Atlantic Province. A contact number for each department of education has been provided should educators wish to make inquiries about resource materials and/or curriculum documents.

Provincial Entrepreneurship Curricula and Contacts

2.5 Professional Development Opportunities for Entrepreneurship Educators in Atlantic Canada

Kindergarten/Primary to Grade 12:

Centre for Entrepreneurship Education and Development (CEED) (English)

The Centre for Entrepreneurship Education and Development has the interest and ability to provide professional growth experiences for entrepreneurship educators at any level. For more information please contact the CEED office in Halifax, NS.

Phone: (902) 424-5263 Toll Free: (800) 590-8481 Website: www.ceed.ednet.ns.ca

Jodry Centre (French/English)

The Jodry Centre has the knowledge and interest to provide professional development support for entrepreneurship educators. For more information please contact the Centre at the Université Sainte-Anne in Church Point, NS.

Phone: (902) 769-3265 Fax: (902) 769-0163

Entrepreneurship Education Program

(English)

The Entrepreneurship Education Program is a comprehensive and community-based project for educators on Cape Breton Island. Its main goal is to provide educators with professional development in the areas of science, entrepreneurship, and technology. Cape Breton Island educators at the K/P-12 level who are interested in the promotion of an entrepreneurial approach to learning within their existing curricula, should contact the Program's Coordinator, Brian McCabe, for more information.

The Entrepreneurship Education Program was the 1998 recipient of the Conference Board of Canada's Partnership Focus Award.

Phone: (902) 563-1118 Fax: (902) 563-1449 E-mail: bmccabe@uccb.ns.ca

Workplace Experiences Program (N.S. Teachers Only)

(English)

The Workplace Experiences Program for Educators provides opportunities for interested educators at all levels to bring personal experiences from the business world to the classroom. The project was developed in partnership with the Nova Scotia Teacher's Union, and with the cooperation of the Nova Scotia Chamber of Commerce. Through this program teachers have an opportunity to leave the classroom for a workplace experience of their choice for one week. Upon returning they are expected to bring their experiences and learning back to the classroom. For more information please contact the Centre for Entrepreneurship Education and Development in Halifax, NS.

Phone: (902) 424-5263 Toll Free: (800) 590-8481 E-mail: akerbojm@gov.ns.ca

Post Secondary:

Acadia Centre for Small Business and Entrepreneurship (ACSBE)

(English)

This Centre has the ability to provide professional development opportunities for entrepreneurship educators in areas of pre-assessment techniques and self-determination needs for potential entrepreneurs. The Centre is also interested in providing support and inservice for the concept of enterprise as a cross-curricular approach for learning and teaching. Educators who would like to explore these opportunities further are encouraged to contact the ACSBE in Wolfville, NS.

Phone: (902) 542-2201 Fax: (902) 542-3650

Centre for Entrepreneurial Leadership (CEL)

(English)

The mission of the Centre for Entrepreneurial Leadership is to develop and support entrepreneurial leadership among students, faculty, and growth-oriented business in New Brunswick. As part of this mission CEL is interested in developing inservice strategies which might nurture entrepreneurial leadership in education. Entrepreneurship educators are encouraged to contact the Centre at the University of New Brunswick for more information.

Phone: (506) 453-4557

Fax: (506) 447-3081

E-mail: cel@unb.ca

Entrepreneurializing the Learning Environment

(French/English)

The Atlantic Colleges Committee for Entrepreneurial Development (ACCED) has developed an experiential and reflective inservice program to promote an entrepreneurial approach for learning and teaching across the curriculum. This is an opportunity to share experiences and ideas that relate to making the instructional delivery of curriculum more entrepreneurial at the community college level. For more information please contact the ACCED representative in your province. See below.

From Attitude to Action: Creating an Entrepreneurial Learning Environment

(French/English)

Based on research in Canada, the USA, the United Kingdom, Australia and France, the Atlantic Colleges Committee for Entrepreneurial Development (ACCED) has developed an activity-based resource to assist college faculty from all disciplines to facilitate entrepreneurial behaviour in learners through the process of "doing". Activities were chosen for skill development in 4 areas: personal, communications, business/project development, and operations. Learners can relate their chosen field of study to business activities. Contact the ACCED representative in your province.

P.J. Gardiner Institute for Small Business

(English)

All high schools now provide courses on enterprise and entrepreneurship skills in their curriculum. Many teachers in the public school system still desire in-depth training in entrepreneurship to better serve their students. The P.J Gardiner Institute, based at Memorial University in St. John's NF, would like to help meet the inservice needs of enterprise and entrepreneurship educators.

Human Resource Contacts for Entrepreneurship Educators

- ✓ 3.1 Introduction
- ✓ 3.2 Local Entrepreneurs and the Atlantic Canada Opportunities Agency
- ✓ 3.3 Conseil Économique Du Nouveau-Brunswick Inc. (CENB)
- ✓ 3.4 Chamber of Commerce Contacts
- ✓ 3.5 Willing Partners
- ✓ 3.6 Atlantic Colleges Committee for Entrepreneurial Development (ACCED)

3.1 Introduction

This section provides entrepreneurship educators with opportunities to access human resources that will enhance the entrepreneurial learning experience for their students. Inviting the community to share in the learning process provides students with the authenticity and relevance which might otherwise be missing from traditional classrooms. Local entrepreneurs in the workplace or the classroom can have a powerful influence on students' motivation to explore entrepreneurship as a career choice. The approaches suggested in this section may be used or adapted in a creative effort to improve community interaction with local entrepreneurs.

3.2 Local Entrepreneurs and the Atlantic Canada Opportunities Agency

"Success doesn't come to you...you go to it."

Marva Collins, Educator

In addition to making contact with the local Board of Trade or Chamber of Commerce, teachers seeking English-speaking or French-speaking entrepreneurs could also contact their nearest Atlantic Canada Opportunities Agency (ACOA) office for assistance.

3.3 Conseil économique du Nouveau-Brunswick (CENB)

CENB members are individuals, businesses, associations, and institutions with an interest in the economic development and growth of the New Brunswick business community. The CENB offers a network of contacts that enable you to meet entrepreneurs and to gain from everyone's experience and knowledge. The CENB promotes entrepreneurship by awarding Business of the Year and Manager of the Year prizes. Fostered by the CENB with support from ACOA and other sponsors, the television series Posséder mon entreprise (starting a business) and Temps d'Affaires (Francophone Entrepreneurs and the economy of the Atlantic Region), also contribute to this objective and make our local entrepreneurs known throughout Canada and beyond.

Francophone entrepreneurship educators may be especially interested in contacting the CENB to determine how this council might help nurture entrepreneurial learning in the classroom.

Conseil économique du Nouveau-Brunswick

3.4 Chamber of Commerce Contacts

Contacts with local entrepreneurs may be made through your local Chamber for a variety of education purposes and activities. Use your phone directory, or the Atlantic Provinces contact provided below to find out who to contact at your local chamber as a first step in the creation of mutually beneficially partnerships involving your school and community.

The Atlantic Provinces Chamber of Commerce

236 St. George Street, Suite 110

Moncton, NB, E1C 1W1

Phone: (506) 857-3980 Fax: (506) 859-6131

The website below will allow you to contact any Chamber of Commerce in Atlantic Canada.

Website: <http://www.apcc.ca/chamber/>

3.5 *Willing Partners*

Willing Partners is a collection of the stories of several hundred Cape Breton entrepreneurs, business people and professionals who have agreed to enter into a learning partnership by sharing their story, experience and encouraging young people to explore self-employment as a career option. *Willing Partners* is about **what is possible**. It is about risk takers from local communities in Cape Breton who looked around for opportunity, assessed their skills, and decided that starting their own business was a viable way to create employment for themselves.

This teacher's resource is a tool for all teachers. It provides interesting stories about Cape Bretoners that all people can relate to. The networking and partnership potential this resource provides is tremendous. As a concept, *Willing Partners* also provides entrepreneurship educators from across Atlantic Canada with an opportunity to involve their students in the creation of their own community-based resource. An excellent resource framework exists as a challenge to us all. Creativity and an entrepreneurial spirit are required!

For more information or requests about *Willing Partners* please contact:

Youth Entrepreneurship Development Opportunities

- ✓ 4.1 Introduction
- ✓ 4.2 Entrepreneurship Education Development Organizations
- ✓ 4.3 Entrepreneurship Mentoring and Counselling Initiatives
- ✓ 4.4 Entrepreneurship Programs and Start-Up Opportunities
- ✓ 4.5 Youth Entrepreneurship Awards
- ✓ 4.6 Youth Entrepreneurship Conferences and Camps
- ✓ 4.7 Regional Economic Development Commissions/Authorities

4.1 Introduction

The key to success for our youth might lie in our ability as educators to establish a creative awareness for the entrepreneurship resources that are available to our youth. Lifelong learning for entrepreneurship can be enriched through the use and understanding of resources which extend learning beyond the walls of the classroom. The focus and challenge for this section is to provide pathways to *student* resources which will nurture entrepreneurial success.

4.2 Entrepreneurship Education Development Organizations

Association of Collegiate Entrepreneurs (ACE)

(English)

ACE is an international, non-profit organization whose objective is to provide student entrepreneurs with the resources, support, and education they need to successfully start and operate a business. The majority of ACE's programs and services are delivered through university or college campus-based chapters. For more information about ACE and for a listing of Atlantic Canadian Chapters please contact ACE toll free, or visit their website.

Phone: (800) 766-8169

Website: www.acecanada.ca

Centre for Entrepreneurship Education and Development (CEED)

(English)

CEED is committed to developing entrepreneurial activities and programs needed to create a strong entrepreneurial culture in communities, the education system, and community and regional economic development groups. CEED offers various entrepreneurial programs for K-12 students (e.g. Future Quest - The Business Creation Program, Mini University, Tech Tour, Young Entrepreneurs Going Places Conference and others). Teachers are encouraged to contact CEED by phone or through their website should you require assistance or additional information.

4.4 Entrepreneurship Programs and Start-Up Opportunities

Aboriginal Business Canada Youth Program

(French/English)

This initiative provides services and financial support to Canadian status and non-status Indians, Inuit and Metis between the ages of 18 and 29. Assistance to youth owned business includes preparation of business plans, marketing and financing the start-up operation, expansion, modernization or acquisition of a commercially viable business, and business advisory services.

Phone: (902) 426-7825 E-mail: Brydon.Joe@ic.gc.ca Website: www.abc.gc.ca

Business Development Program

(French/English)

The ACOA Business Development Program provides assistance to small- and medium-sized businesses in Atlantic Canada to start-up, expand, modernize, and become more competitive. Non-profit organizations providing support to the business community may also qualify. ACOA can provide an unsecured, interest free contribution towards the eligible costs of a new establishment, expansion, modernization or a project which improves your competitiveness. ACOA's funding to commercial clients is repayable on a schedule matching your circumstances.

Phone: (506) 851-2271 Toll Free: (800) 561-7862 Website: www.acoa.ca

Canadian Youth Business Foundation Program

(French/English)

The Canadian Youth Business Foundation is a non-profit, private sector initiative, whose objectives are to provide funding and mentoring to young Canadian entrepreneurs. You must be between 18 and 29 years of age to qualify for assistance. On average, loans of \$7,500 can be obtained; however, a maximum of \$15,000 may be obtained for qualifying businesses. A committee of community volunteers will make the loan decision based on your business idea..

Multi-Media Resources for Entrepreneurship

- ✓ 5.1 Introduction
- ✓ 5.2 Virtual Resources and Web-sites
- ✓ 5.3 Software, Video, and Audio
- ✓ 5.4 Published Print Materials

5.1 Introduction

Virtual learning webs and new multi-media materials can help keep learning current and engaging. This section provides the trail to many effective entrepreneurship resources which may be used at the K-12 and/or post-secondary level. An effort has been made to highlight valuable Canadian resources which will promote the development of key entrepreneurial knowledge, skills, and attitudes in our youth.

5.2 Virtual Resources and Websites

Canadian Sites & Resources:

Association of Collegiate Entrepreneurs (ACE)

(English)

The Association of Collegiate Entrepreneurs (ACE) is an international organization serving the needs of post-secondary students interested in entrepreneurship. This site identifies regional chapters and provides information about the Association. The 'Resource Guide' area of the site is extremely helpful in identifying: small business, government, business regulatory, financial, research, and association links.

Website: www.acecanada.ca

AYBC Resource Centre

(English)

This site provides a listing of support materials for Aboriginal Youth which may be of interest to entrepreneurship educators. The resources listed on this site are designed to teach and encourage youth entrepreneurship.

Website: <http://www.aybc.org>

Anatomy of an Entrepreneur - Manitoba Industry, Trade and Tourism ***(English)***

This on-line publication provides personal advice from over forty successful entrepreneurs. This is interesting material for aspiring entrepreneurs at the high school and post-secondary levels.

Website: <http://strategis.ic.gc.ca/SSG/mi03629e.html>

Atlantic Canada Opportunities Agency (ACOA)

(French/English)

A great site for links and information on entrepreneurship and small business, including research materials and profiles of entrepreneurs. ACOA is the federal government department responsible for economic development in Atlantic Canada. Stimulating the entrepreneurship spirit is one of its priorities.

Website: <http://www.acoa.ca>

Atlantic Virtual Women's Business Bureau

(English)

This site provides information on issues of interest to women entrepreneurs in Atlantic Canada.

Website: <http://www.bizbureau.com>

Business Development Bank of Canada (BDC)

(French/English)

Offers a wide range of information and assistance to those involved in, or wishing to start a business. This site should be of interest to all educators and students of entrepreneurship at the late high school years, and at the post-secondary level. Site areas include: Financing Your Business, Managing Your Business, Special Events, and Publications.

Website: <http://www.bdc.ca>

CIBC SmartStart

(French/English)

The SmartStart Program is a perfect way to help older elementary and middle level students manage money and learn about banking. Children should enjoy the interactive nature of this site.

Website: <http://www.cibc.com/smartstart/>

Canada Business Service Centres (CBSC)

(French/English)

This site provides access to any CBSC in Canada. It also has links to other sites and allows you to search the federal Business Information System (BIS).

Website: <http://www.cbsc.org/main.html>

Canada NewsWire

(French/English)

Search the latest and most up to date news release information.

Website: <http://www.newswire.ca/>

Canada Youth Business Foundation (CYBF)

(English)

A great site for post-secondary students to discover. The CYBF site provides information and access to: mentoring, business support, and loan opportunities.

Website: <http://www.cybf.ca/noframes/index.htm>

Canadian Bankers Association

(French/English)

This site connects users with important information about money and small business. The site information and publications would be most useful for post-secondary students.

Website: <http://www.cba.ca/>

Canadian Rural Information Service (CRIS)

(French/English)

This site provides top quality links to resources for entrepreneurship education. Website areas include: publications, associations and organizations, funding and mentoring programs, youth employment opportunities, and conferences.

Website: <http://aceis.agr.ca/cris>

Centre Assomption de recherche et de développement en entrepreneuriat (CARDE)

(French)

The CARDE is associated with the Faculty of Business Administration at l'Université de Moncton. Its objective is to develop entrepreneurs as well as create awareness and train people about the concept of entrepreneurship. Its Website provides access to many entrepreneurship-related resources, as well as to a course on how to start a business.

Website: <http://www.umoncton.ca/carde/>

Centre for Entrepreneurship Education and Development (CEED)

(English)

This web-site has something to offer both entrepreneurship students and educators. The mission of CEED is to nurture entrepreneurship in young people by undertaking, creating, co-ordinating and acting as a catalyst in the areas of: Entrepreneurship Education, Research and Program Design, Professional Development and Community Entrepreneurship.

Website: www.ceed.ednet.ns.ca

Econmedia

(French)

An excellent site for those looking for information about the economy and potential implications for business.

Website: <http://www.economedia.com/>

Enterprise/Entrepreneurship Development

(French/English)

This page lists and rates various sites on the web which have an entrepreneurship focus.

Website: <http://www.enterweb.org/entrship.htm>

Enterprise Education Links

(English)

This Newfoundland-based site contains some great links to entrepreneurship/enterprise resources for students and educators at the high school and post-secondary levels.

Website: http://www.stemnet.nf.ca/Curriculum/enter_ed/links.htm

Entreprendre

(French)

This is Quebec's premiere business magazine, on-line and jam packed with excellent information for entrepreneurship students and educators.

Website: <http://www.entreprendre.ca/>

Government of Canada Links

(French/English)

Provides educators and students with direct links to various on-line government resources.

Website: <http://www.globalvision.ca/govlinks.html>

Guerrilla Marketing Online

(English)

This site provides a wide range of marketing information for educators and senior students.

Website: www.gmarketing.com

Human Resources Development Canada -Youth Initiatives

(French/English)

The Youth Initiatives site provides information for student job funding and other enterprising and entrepreneurial opportunities.

Website: <http://youth.hrdc-drhc.gc.ca/ythprg/main.shtml>

Industry Canada - Strategis**(French/English)**

This site provides information on a number of youth employment programs and strategies, as well as a connection to key organizations and programs in support of youth employment in Canada. Specific reference is made to a number of programs aimed at entrepreneurship development for youth. Be sure to check out the “Business Support and Services” and “Human Resource and Training” menus.

Website: <http://strategis.ic.gc.ca/>

Interactive Business Planner (IBP)**(English)**

The IBP uses the capabilities of the Internet to assist entrepreneurs with preparing a 3 year business plan for their new or existing business.

Website: <http://www.sb.gov.bc.ca/smallbus/workshop/ibp.htm>

Institute for Enterprise Education**(English)**

This site provides some useful resource materials and excellent links to international enterprise education sites.

Website: <http://www.neai.com/iee/iee.ehtml>

Junior Achievement (JA) of Canada**(English)**

This site provides information on the numerous opportunities and specific programs JA offers to youth through partnerships with business and education. Middle level educators may be especially interested in this site.

Website: <http://vp.schoolnet.ca/biz/JA/JA.html>

Junior Chamber Home Pages Worldwide**(English)**

The Junior Chamber (JC) provides an opportunity for post-secondary students to develop leadership and entrepreneurial skills. This site provides links to every national and international JC chapter.

Website: <http://fan.nb.ca/jaycee/linklist.htm>

Junior Team Canada Competition

(English)

This website provides information about an international market plan competition for youth.

Website: <http://www.globalvision.ca/jtccomp.html>

National Business and Education Centre

(French/English)

This Centre is part of the Conference Board of Canada. The NBEC's purpose is to help business and educators work together to nurture an enterprise/entrepreneurial culture. Educators from the middle to post-secondary level should be interested in checking out the on-line publications.

Website: <http://www.conferenceboard.ca/nbec/>

New Brunswick Community College — Dieppe

(French/English)

Business Plan

This interactive course allows participants to draft a business plan. All who register will be able to benefit from consulting services for a number of hours. In order to fully understand this course, it would be preferable if participants had an understanding about management practices (i.e. marketing and finance) and the ability to use word processing and spreadsheet software.

Website: <http://www.ccnb.nb.ca>

Provincial Department of Education Web-sites
